

CONSULTING & MANAGED SERVICES

BuildMyIQ

Services

Expert hands on BuildMyIQ: platform setup, course authoring, integrations, migrations, managed operations, governance and enablement.

Consulting, implementation, operations and enablement around the BuildMyIQ learning platform. Engage one service, or combine several into a program.

buildmyiq.com/services

01 You do not have to do it alone

BuildMyIQ is a learning platform you can run yourself. But you do not have to do it alone. We help you adopt and get more from BuildMyIQ, and we deliver done-for-you learning outcomes powered by it.

Comprehensive services across the BuildMyIQ learning lifecycle, every one grounded in a real product capability. Engage one, or combine several into a program.

GROUNDING IN THE PRODUCT

RBAC & AUDIT THROUGHOUT

API-FIRST & INTEGRABLE

IMPROVE YOUR BUILDMYIQ

Consulting, implementation, migration, security and training so your team gets the full value of the platform, faster, and with governance from day one.

POWERED BY BUILDMYIQ

Done-for-you outcomes we deliver using the product (platform setup, course authoring and managed learning operations) so you can focus on teaching.

02 What we do, at a glance

IMPROVE YOUR BUILDMYIQ

- 01 Learning Strategy & Consulting**
Design the right learning model on BuildMyIQ from day one.
- 02 Migration & Content Onboarding**
Move courses, content and learner records off legacy systems.
- 03 Learning Analytics & AI Enablement**
Put engagement, mastery and early-warning data to work.
- 04 Security, RBAC & Compliance**
Least-privilege roles, audited actions, data protection.
- 05 Training & Team Enablement**
Make educators, admins and engineers genuinely productive.

POWERED BY BUILDMYIQ

- 06 Implementation & Platform Setup**
Your learning environment stood up end to end.
- 07 Integrations & SSO**
Identity, rostering, HRIS, video and analytics connected.
- 08 Course Authoring & Content Services**
Courses designed and produced, ready to teach.
- 09 Managed Learning Operations**
We operate your BuildMyIQ backend for you.

TRACK A · SERVICES 01-05

Improve your BuildMyIQ

Consulting, implementation, migration, security and training so your team gets the full value of the platform, faster, and with governance from day one.

SERVICE 01

Learning Strategy & Consulting

We help you design the right learning model on BuildMyIQ (program structure, course taxonomy, assessment strategy and role mapping) so a single training provider, a multi-campus institution or a corporate academy is modelled correctly from day one.

DELIVERABLES

- Discovery of your current LMS, SIS, and learning tooling
- Program, course, and learning-path taxonomy design
- Assessment, rubric, and competency-framework strategy
- Role mapping across learners, educators, admins, and L&D
- Workspace, RBAC, and multi-tenancy design grounded in the platform

SERVICE 02

Migration & Content Onboarding

Moving off a legacy LMS, a spreadsheet-based SIS, and scattered course files? We migrate your courses, content, learner records, and history into BuildMyIQ with minimal disruption.

DELIVERABLES

- Inventory of current LMS, SIS, and content systems
- Course and content migration with mapping and validation
- Historical learner-record and grade import where feasible
- Parallel-run validation and a reversible cutover plan
- Team handover with runbooks for the new learning model

SERVICE 03

Learning Analytics & AI Enablement

We help you put the platform's data to work (engagement, mastery, early-warning signals and the adaptive engine) as a governed roadmap, so decisions move from gut-feel to data-backed without overstating what exists today.

DELIVERABLES

- Analytics setup for engagement, progress, and completion
- Cohort dashboards and early-warning signal configuration
- AI-tutor and adaptive-learning enablement as it ships
- Skills-mapping and competency-tracking design
- Honest current-vs-roadmap framing so expectations stay accurate

SERVICE 04

Security, RBAC & Compliance

We configure BuildMyIQ to your compliance bar: least-privilege roles across learner, educator, admin and L&D, audited actions, and data protection for minors and staff, inherited from the Burdenoff platform rather than re-invented.

DELIVERABLES

- Workspace RBAC role design and least-privilege access reviews
- Multi-role identity setup with every action scoped and attributable
- Audit-log review, retention configuration, and evidence workflows
- Education data-protection and learner-privacy alignment
- Data-protection and subprocessor alignment for your jurisdiction

SERVICE 05

Training & Team Enablement

We get your educators, administrators, and engineers genuinely productive, not just logged in. Role-based sessions and golden-path playbooks so a new educator authors a course, and a new developer drives the API, in hours.

DELIVERABLES

- Hands-on workshops for educators, administrators, and platform teams
- Golden-path playbooks for authoring, enrollment, and assessment
- API, CLI, MCP, and SDK enablement for engineering teams
- Admin and oversight training for institution operators
- Onboarding checklists and curated learning paths

THE AIM

We leave your team able to run it without us.

Every engagement ships documentation, golden-path playbooks, and hands-on enablement.

TRACK B · SERVICES 06-09

Powered by BuildMyIQ

Done-for-you outcomes we deliver using the product (platform setup, course authoring and managed learning operations) so you can focus on teaching.

SERVICE 06

Implementation & Platform Setup

Our team stands up your BuildMyIQ learning environment end to end (programs, courses, SIS records, roles and settings) so you launch with a working learning experience, not a half-configured stack.

DELIVERABLES

- Tenant, workspace, and settings configuration for your organization
- Program, course, and learning-path configuration
- SIS records, sections, and roster setup
- Role provisioning for learners, educators, and administrators
- Sandbox-validated launch so the first cohort works on day one

SERVICE 07

Integrations & SSO

BuildMyIQ is API-first. We help you connect it to the rest of your stack (identity providers, rostering, HRIS, video tools and analytics) through its SSO, API and webhooks, so learning data flows instead of being re-keyed.

DELIVERABLES

- Single sign-on with your existing identity provider
- Roster and directory sync from your systems
- HRIS / SIS integration for enrollment and records
- Webhooks and event-driven integrations for downstream systems
- Your own portals, apps, and partner systems connected through the documented API

SERVICE 08

Course Authoring & Content Services

Need courses built? We design and produce learning content on BuildMyIQ (modules, lessons, media, and assessments with rubrics) using the authoring studio and AI assistance, so you launch with content that is ready to teach.

DELIVERABLES

- Instructional design for programs, courses, and learning paths
- Lesson, media, and activity production in the authoring studio
- Assessment, quiz, and rubric design with explained feedback
- AI-assisted drafting kept under expert review
- Accessibility review so content works for every learner

SERVICE 09

Managed Learning Operations

Prefer to focus on teaching? We operate your BuildMyIQ backend for you: monitoring platform health, keeping courses and rosters current, watching enrollment and completion, and acting on what the data shows.

DELIVERABLES

- Platform- and cohort-health monitoring across the organization
- Course, content, and roster upkeep
- Enrollment, completion, and certification oversight
- Scheduled maintenance, backups, and incident response
- Usage, quota, and analytics reporting back to your team

03 Set it up with us, or hand us the operations

DONE WITH YOU

We set it up with you: configuration, content and integrations

Our team works alongside yours to stand up your learning environment on BuildMyIQ. Programs, courses, SIS records, roles and integrations are configured and validated in a sandbox before a single real cohort starts.

- Programs, courses, and SIS configured for your organization
- Course content built in the authoring studio with assessments
- Sandbox-validated launch so the first cohort works on day one

DONE FOR YOU

Or hand us the operations: managed learning operations

When you would rather focus on teaching, we run the backend for you, with usage, quota and analytics reporting back to your team.

- Platform- and cohort-health monitoring across the organization
- Course, content, and roster upkeep
- RBAC-scoped, fully audited operations, never shared secrets

04 A clear path from intent to impact

The same loop whether it is a one-week platform stand-up or a multi-quarter learning program: scoped, reviewable, and audited at every step.

01

Discover

We map your programs, courses, learners, records, and goals, and agree on what “done” looks like before any work starts.

02

Plan

A scoped, reviewable plan: program and course model, assessment strategy, integrations, RBAC, and rollout sequence, with checkpoints where it matters.

03

Build

We configure programs, build content, set up SIS and roles, and validate everything in a sandbox, shipping in increments you can see.

04

Operate

We hand over with docs and enablement, or stay on to run the learning backend: monitored, audited, and reporting from the first day.

05 We leave your team able to run it without us

Every engagement ships documentation, golden-path playbooks, and hands-on enablement. Whether you keep us on to operate the learning backend or take the keys yourself, your educators, administrators, and engineers understand the platform, not just the dashboard.

- Role-based workshops for educators, administrators, and engineering teams
- API, CLI, MCP, and SDK enablement so teams extend it themselves
- Onboarding checklists and curated learning paths

SUPPORT & SLAS

From standard support to priority response with defined SLAs, we keep your learning platform running: incident response, upgrade guidance, and a named point of contact for enterprise engagements.

Tiers are scoped to your plan and operational needs.

PRICING

Engagements are scoped to your needs. Contact us.
