Live AI — answers can still be imperfect; availability and pricing are checked against your real catalog, but double-check before you buy.

Something uplifting under 100 minutes, not in English.

Three published titles fit. I checked each one against your active rights windows — two are included in your plan, one is rent-only at 149 rupees. Note: this was a keyword fetch filtered on runtime and language, not taste-aware discovery.

Concept — semantic search is not implemented yet. Today catalog search matches title text only.

slow-burn neo-noir, under two hours, not in English Semantic

Language: any Runtime: under 120 min Type: Feature Availability: Active rights

Why these

- Mood match — slow pacing, low-key lighting cues in synopsis
- Genre neighbours — noir, crime drama, mystery
- Excluded — original language English
