 All-Source Intelligence Platform • Launching 2026

One current, accountable intelligence picture.

IntelWatchtower unifies collection and tasking, all-source fusion, cyber detection, investigation, and reporting in one secure, common operating picture—so you can see first, decide faster, and act with confidence.

 Confidence: HIGH • Provenance: 3 sources Field-level classification RBAC at the gateway edge Confidence & provenance Immutable audit trail Strict tenant isolation

Multi-source collection & tasking

Task and collect from any source—technical, open, human, and beyond.

All-source fusion

Fuse structured and unstructured data into trusted, enriched intelligence.

Common operating picture

Real-time, collaborative picture with context, tasks, and alerts.

Cyber threat detection

Detect advanced threats across your environment with AI-powered analytics.

Investigation & mission ops

Pivot, investigate, and orchestrate missions from one workspace.

Classification, RBAC & audit

Enforce classification, least privilege, and immutable audit everywhere.

Analyst score

Set by V. Thiagarajan · 22 Jul 2026

Proposed score

Not applied

Why 81

- Indicator density — 9 active IOCs
- Alert severity history — 2 HIGH in 14 days
- Relationship reach — 11 edges, depth 2
- Observation recency — 4 h since last sighting

Accept proposal

Reject

Accepting writes 81 to the analyst score and records your decision.
