

STRATEGY, IMPLEMENTATION & HERITAGE OPERATIONS

Expert hands on TheCulturePost

TheCulturePost is a platform you can run yourself. But you do not have to do it alone. We help you adopt and get more from the platform, and we deliver done-for-you heritage outcomes powered by it: strategy, implementation, content migration, managed editorial operations, and enablement.

GROUNDED IN THE PRODUCT

SOURCED & RESPECTFUL

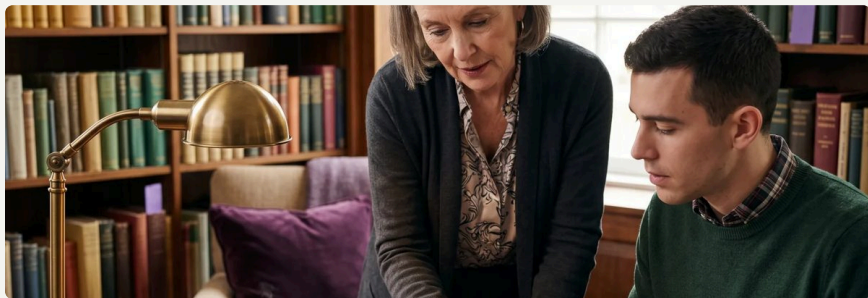

RIGHTS & PRIVACY AWARE

01 What we do

Comprehensive services across the TheCulturePost lifecycle, every one grounded in a real product capability.

Engage one, or combine several into a program. The same loop applies whether it is a one-week setup or a multi-quarter heritage program: scoped, reviewable, and respectful at every step.

TRACK 01

Improve your TheCulturePost

Strategy, implementation, migration, training, governance, and support so your team gets the full value of the platform, faster, and with care from day one.

Heritage Strategy & Consulting · Implementation & Content Migration · Migration & Onboarding from Existing Tools · Training for Contributors & Editors · Curation & Discovery Enablement · Governance, Rights & Privacy · Support, SLA & Stewardship

TRACK 02

Powered by TheCulturePost

Done-for-you outcomes we deliver using the product (managed editorial operations, integrations, and spaces we set up with you) so you can focus on your mission.

Managed Editorial & Archive Operations · Integrations & Interoperability

02 · TRACK ONE

Improve your TheCulturePost

Strategy, implementation, migration, training, governance, and support so your team gets the full value of the platform, faster, and with care from day one.

WE SET IT UP WITH YOU

Spaces, collections, and integrations

Our team works alongside yours to stand up your cultural space. Articles, timelines, source collections, and the editorial workflow are configured to your traditions and standards, validated in a sandbox before a single piece is published.

2.1 Heritage Strategy & Consulting

2.2 Implementation & Content Migration

2.3 Migration & Onboarding from Existing Tools

2.4 Training for Contributors & Editors

2.5 Curation & Discovery Enablement

2.6 Governance, Rights & Privacy

2.7 Support, SLA & Stewardship

02 Improve your TheCulturePost: plan and stand it up

2.1 · STRATEGY

Heritage Strategy & Consulting

We help you shape the right cultural presence: editorial focus, taxonomy of traditions, sourcing standards, and community norms, so a single collection or a multi-tradition platform is modelled thoughtfully from day one.

- Discovery of your existing content, archives, and community
- Taxonomy design for traditions, regions, eras, and themes
- Editorial and citation standards aligned to scholarly best practice
- Community-norms and sensitivity framework for respectful dialogue
- Workspace, roles, and access design grounded in the platform

2.2 · IMPLEMENTATION

Implementation & Content Migration

We stand up your space end to end: importing existing articles, source collections, and timelines, wiring up the editor and review workflow, and validating everything in a sandbox before launch.

- Article, source, and media import with metadata preserved
- Editorial workflow, roles, and review-gate configuration
- Timeline and collection assembly from your existing material
- Citation linking and source-health setup
- Sandbox-validated cutover so the first published piece works on day one

2.3 · MIGRATION

Migration & Onboarding from Existing Tools

Moving off a tangle of CMS exports, spreadsheets, and shared drives? We migrate your content, archives, and contributors into TheCulturePost with minimal disruption and a clear cutover plan.

- Inventory of current content, archives, contributors, and access paths
- Mapping legacy categories to the TheCulturePost taxonomy
- Bulk import of documents, recordings, and primary sources with provenance
- Contributor and editor onboarding into the new workflow
- Parallel-run validation, cutover plan, and team handover

02 Improve your TheCulturePost: enable your team

2.4 · TRAINING

Training for Contributors & Editors

We get your writers, editors, and archivists genuinely productive, not just logged in. Role-based sessions, sourcing and sensitivity guidance, and golden-path templates so a new contributor ships a well-cited piece quickly.

- Hands-on workshops for contributors, editors, and archivists
- Citation, sourcing, and respectful-framing guidance
- Editor and review-workflow training for editorial teams
- Golden-path article and collection templates set up for your traditions
- Onboarding checklists, tours, and curated learning paths

2.5 · CURATION

Curation & Discovery Enablement

We help your team organise your material so readers find the right pieces: designing your topic taxonomy, curating collections, and tuning discovery and featuring across traditions, regions, and eras.

- Topic taxonomy and tradition-tag design for your material
- Curated collections and featured-story programming
- Tradition, region, era, and theme tagging standards
- Discovery, filtering, and featuring configuration per space
- Editorial calendar and curation playbooks for your team

SOURCED & RESPECTFUL

Sourcing, sensitivity, and citation enablement so the team works to standard.

03 · TRACK TWO

Powered by TheCulturePost

Done-for-you outcomes we deliver using the product (managed editorial operations, integrations, and spaces we set up with you) so you can focus on your mission.

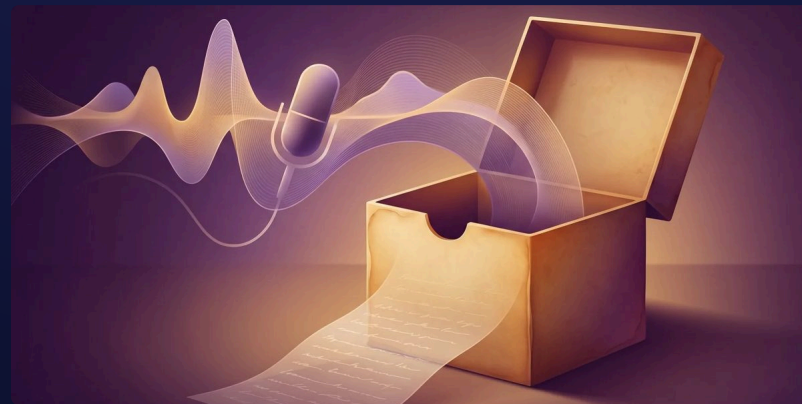

OR HAND US THE DESK

Managed editorial operations

We run the editorial and archive backend for you. We moderate dialogue, keep collections and taxonomy current, monitor source health, and act on what the data shows, with engagement and content-health reporting back to your team.

3.1 Managed Editorial & Archive Operations

3.2 Integrations & Interoperability

03 Powered by TheCulturePost

3.1 · MANAGED OPERATIONS

Managed Editorial & Archive Operations

Prefer to focus on your mission? We run the editorial and archive backend for you: moderating dialogue, keeping collections current, monitoring source health, and acting on what the data shows, with reporting back to your team.

- Discussion moderation aligned to your community norms
- Collection, taxonomy, and contributor-status upkeep
- Source-health monitoring and broken-citation remediation
- Scheduled publishing, backups, and archive maintenance
- Usage, engagement, and content-health reporting

3.2 · INTEGRATIONS

Integrations & Interoperability

We connect TheCulturePost to the systems heritage institutions already use (catalog and DAM systems, learning platforms, standards-based metadata exchange) through the public read API, IIIF endpoint and single sign-on built into the product. If a connector you need is missing, tell us.

- Connecting your collection-management and DAM systems through the API
- Standards-based metadata exchange (e.g. Dublin Core, IIIF-friendly)
- Learning-platform and classroom-tool connectors (roadmap)
- Guidance on connecting your own front ends and apps through the API
- Single sign-on (SSO) for institutions

FULLY AUDITED

Rights-respecting, fully audited operations, never shared secrets.

04 How we engage

A clear path from intent to impact. The same loop whether it is a one-week setup or a multi-quarter heritage program: scoped, reviewable, and respectful at every step.

01

Discover

We map your content, archives, community, and goals, and agree on what "done" looks like before any work starts.

02

Plan

A scoped, reviewable plan: taxonomy, editorial workflow, sourcing standards, integrations, and rollout sequence, with checkpoints where it matters.

03

Build

We configure your space, import collections, wire the workflow, and validate everything in a sandbox, shipping in increments you can see.

04

Operate

We hand over with docs and enablement, or stay on to run the editorial backend: moderated, audited, and reporting from the first day.

ENGAGEMENT MODEL

Engage one service, or combine several into a program.

PRICING

Contact us. Tell us about your collections, community, and goals and we will recommend the right mix.

05 We leave your team able to run it without us

Every engagement ships documentation, golden-path templates, and hands-on enablement. Whether you keep us on to operate the editorial backend or take the keys yourself, your team understands the platform, not just the dashboard.

- Role-based workshops for contributors, editors, and archivists
- Sourcing, sensitivity, and citation enablement so the team works to standard
- Onboarding checklists, tours, and curated learning paths

HOW TO START

Let's scope what you need

Tell us about your collections, community, and goals. We will recommend the right mix of strategy, implementation, operations, and enablement, and a plan to get there.
