

CONSULTING & SUPPORT

Expert hands on TimeCampus

TimeCampus is built to run itself — but you do not have to roll it out alone. We help you adopt and get more from the platform, and we deliver managed administration and integrations so your team can focus on the work that matters.

PRIVACY-FIRST THROUGHOUT

PHASED, LOW-RISK ROLLOUT

WE LEAVE YOU SELF-SUFFICIENT

01 How the services fit the product

TimeCampus is privacy-first, AI-assisted time intelligence that unifies your work across every tool and helps you protect deep focus. The services wrap around the platform, across its whole lifecycle.

Comprehensive services across the TimeCampus lifecycle — engage one, or combine several into a single program. The same loop applies whether it is a one-week setup or a multi-team rollout: scoped, reviewable, and privacy-respecting at every step.

TRACK 01

Adopt TimeCampus

Consulting, implementation, migration, training, and enablement so your team gets the full value of the platform — faster, and with privacy and governance from day one.

Time-Intelligence Consulting · Implementation & Rollout · Migration & Onboarding · Training & Workshops · Team Enablement & Adoption · Privacy, Governance & Compliance

TRACK 02

Managed for you

Done-for-you administration, integrations, and priority support — we keep TimeCampus healthy and run the reporting, so you can focus on the work itself.

Managed Service & Administration · Integrations & Applets · Priority Support & SLA

02 · TRACK ONE

Adopt TimeCampus

Consulting, implementation, migration, training, and enablement so your team gets the full value of the platform — faster, and with privacy and governance from day one.

WE IMPLEMENT IT WITH YOU

Clean rollout, sensible defaults

Our team works alongside yours to stand TimeCampus up the right way: workspaces and roles that match how you actually operate, the tools you already use connected into one timeline, and privacy-first defaults set from the start. You get a calm go-live instead of a scramble.

2.1 Time-Intelligence Consulting

2.2 Implementation & Rollout

2.3 Migration & Onboarding from Existing Tools

2.4 Training & Workshops

2.5 Team Enablement & Adoption

2.6 Privacy, Governance & Compliance

02 Adopt TimeCampus — plan and stand it up

2.1 · CONSULTING

Time-Intelligence Consulting

We help you decide what a calmer, more honest relationship with time looks like for your team — then map TimeCampus to it, before any rollout begins.

- Discovery of how your team actually spends its days today
- Goals and success criteria agreed up front — what "better" means for you
- A focus, meeting-load, and wellbeing strategy grounded in your reality
- A privacy-first adoption model that fits your culture and policies
- A prioritised, phased roadmap from pilot to organisation-wide rollout

2.2 · IMPLEMENTATION

Implementation & Rollout

We stand TimeCampus up cleanly across your team — workspaces, roles, connected tools, and sensible defaults — so day one is calm rather than chaotic.

- Workspace and team structure designed for your org
- Connecting the tools you already use into one unified timeline
- Sensible capture, categorisation, and retention defaults
- Pilot group setup, validation, and a staged wider rollout
- A go-live checklist and handover so nothing is left half-configured

2.3 · MIGRATION

Migration & Onboarding from Existing Tools

Moving off spreadsheets, manual timers, or another tracker? We migrate your people and history across with minimal disruption and no lost context.

- Inventory of current trackers, timesheets, and reporting workflows
- Data migration and mapping where existing records can be brought across
- Parallel-run validation so you can trust the new numbers before cutover
- Per-person onboarding paths that respect the privacy-first model
- A clean cutover plan with rollback safety and team communication

02 Adopt TimeCampus — make it stick

2.4 · TRAINING

Training & Workshops

We get your people genuinely confident with TimeCampus — not just logged in. Role-based sessions that turn the platform into a daily habit.

- Hands-on workshops for individuals, leads, and administrators
- Practical playbooks for protecting deep work and pruning meetings
- How to read insights honestly and act on the patterns that matter
- Privacy and data-control walkthroughs so everyone trusts the tool
- Recorded sessions and quick-reference guides for new joiners

2.5 · ENABLEMENT

Team Enablement & Adoption

Adoption is a behaviour change, not a login. We help leads embed healthy time habits so the value compounds long after launch.

- Change-management support and internal champions program
- Healthy-workload and focus rituals set up for each team
- Adoption check-ins and guidance as usage matures
- Capacity-planning enablement grounded in real, aggregate data
- A self-sufficiency plan so your team can run it without us

2.6 · GOVERNANCE

Privacy, Governance & Compliance

We tune TimeCampus to your governance bar — least-privilege roles, clear retention, and aggregate-not-individual views your people can trust.

- Role and access design following least-privilege principles
- Data-retention and capture policy configuration and review
- Aggregate, privacy-respecting team views — never individual surveillance
- Documentation to support your internal privacy and security reviews
- Guidance aligning the rollout with your existing policies

03 · TRACK TWO

Managed for you

Done-for-you administration, integrations, and priority support — we keep TimeCampus healthy and run the reporting, so you can focus on the work itself.

OR HAND US THE KEYS

Managed administration and reporting

When you would rather focus on the work itself, we run TimeCampus administration for you. We keep workspaces, roles, and connectors healthy, prepare the reporting your stakeholders need, and review the configuration as your team and policies change — with a single point of contact.

3.1 Managed Service & Administration

3.2 Integrations & Applets

3.3 Priority Support & SLA

03 Managed for you

3.1 · MANAGED SERVICE

Managed Service & Administration

Prefer to focus on the work? We run TimeCampus administration for you — workspaces, roles, connectors, and reporting kept healthy and current.

- Workspace, role, and access administration on your behalf
- Connector health monitoring and upkeep as your toolset evolves
- Scheduled reporting prepared and delivered to your stakeholders
- Configuration reviews as your team and policies change
- A single point of contact for day-to-day platform operations

3.2 · INTEGRATIONS

Integrations & Applets

Want TimeCampus to fit the tools and workflows you already have? We connect them through the built-in connectors and configure applets for how you work. If something you need is missing, tell us and we raise it with the product team.

- Built-in connectors set up to bring your tools into one timeline
- Applets configured for the views, reports, and workflow automations you need
- Your reporting and BI pipelines connected through exports and the GraphQL API
- Export and data-flow design that keeps you in control of your data
- Setups that stay on the standard product, so every upgrade applies cleanly

3.3 · SUPPORT

Priority Support & SLA

For teams that need assurance, we offer priority support with response commitments, a named contact, and proactive guidance.

- Priority response with agreed service-level targets
- A named contact who knows your setup
- Proactive configuration and adoption health reviews
- Coordinated guidance through upgrades and new capabilities
- Escalation path for time-sensitive issues

04 How we engage

A clear path from intent to impact. The same loop whether it is a one-week setup or a multi-team rollout — scoped, reviewable, and privacy-respecting at every step.

01

Discover

We map how your team spends its days, your tooling, and your goals — and agree what "done" looks like before any work starts.

02

Plan

A scoped, reviewable plan: workspace model, connectors, roles, privacy posture, and a phased rollout sequence.

03

Implement

We stand up TimeCampus, connect your tools, configure the applets you need, and validate with a pilot before going wide.

04

Enable & operate

We train your team and hand over — or stay on to administer the platform and deliver reporting for you.

ENGAGEMENT MODEL

Engage one service, or combine several into a single program.

PRICING

Contact us — tell us about your team and goals and we will scope the right mix.

05 We leave your team able to run it without us

Every engagement ships documentation, role-based training, and hands-on enablement. Whether you keep us on to administer the platform or take the keys yourself, your people understand TimeCampus — not just the dashboard.

- Role-based workshops for individuals, leads, and administrators
- Adoption rituals so healthy time habits actually stick
- Documentation and quick-reference guides for new joiners

HOW TO START

Let's scope what you need

Tell us about your team and goals. We'll recommend the right mix of consulting, implementation, enablement, and managed support — and a plan to get there.
